

CWDM-4CH 10Gbps 20 KM

Kode : CWDM-4CH-20
Kategori : Mikrobits Fiber SFP & Patch
Harga : Rp 3.900.000,00
Rp 6.165.000,00

The CWDM-4CH is a passive MUX/DEMUX unit, which allows to combine up to four fiber links into one, to simplify and reduce the cost of long distance fiber installations. At the other location, the combined line is split back up again, so that instead of four long fiber lines, you would only need one. The Coarse Wavelength-Division Multiplexing (CWDM) technology offers a solution which will increase capacity of existing fiber infrastructure by enabling multiple channels/wavelengths over the same fiber cabling and will reduce costs for a new fiber optic deployment.

Inside Box :

- 1pcs CWDM-4CH MUX/DEMUX
- 4pcs SFP+ 10Gbps 20km

1U bracket dijual terpisah : [CWDM-1U](#)
